

## Declaration of Non-Hazardousness to Health

Please enclose to shipment or send prior by mail fax or email

Dear customer,

we would like to prevent harm from our employees from contaminated devices sent in for repair.

Please do understand that repairs can only be done after we received a complete and signed declaration of non-hazardousness for the respective order and respective devices.

Do only send in cleaned devices and confirm that. Furthermore we ask you to tell us which cleaning agent was used to clean the devices. If you used toxic detergents or products which are listed in the Ordinance of Hazardous substances (GefStoffV) a material safety data sheet (MSDS) needs to be added to the declaration on Non-Hazardousness.

In case we receive contaminated devices, or a device without declaration of Non-Hazardousness, that from its appearance leads to the suspicion that it is contaminated, Bieler + Lang GmbH reserves its right to send back the devices to you for cleaning.

### Declaration of Non-Hazardousness for the following devices:

Controller Type:	Serial number.	Quantity:
