Bieler+Lang goes international

Safe Monitoring Group acquires Bieler+Lang GmbH,  
a leading manufacturer of gas detectors in Germany.

**Safe Monitoring Group AB, ("Safe Monitoring Group"), an industry group of gas detector manufacturers, closed the acquisition of Bieler+Lang GmbH ("Bieler+Lang"). Safe Monitoring Group will together with Bieler+Lang continue the expansion of their work to protect people, equipment and the environment from hazardous gas leaks.**

Bieler+Lang, founded in 1967 in Achern, Germany, help you to protect people, the environment, technical equipment and property from serious damage. For more than 50 years, our products have been providing timely and reliable warnings of gas accidents and explosions. Bieler+Lang gas detection and warning systems were developed especially for these applications.

Being a part of Safe Monitoring Group, Bieler + Lang will together with the other companies in the group collaborate in areas such as; R&D, Marketing, Procurement, Sales and Service. For example; refrigeration customers in Germany will see a closer presence of SAMON, another Safe Monitoring Group company and customers in the Nordics of Bieler + Lang will have a local service partner from Safe Monitoring Group companies SAMON or InduPro.

"I'm thrilled to be a part of Safe Monitoring Group and look forward to the expansion of both Bieler + Lang as well as the group with other companies joining forces with us." Says Susanne Dussa, Managing Director of Bieler+Lang.

"I have got to know Bieler+Lang during the past year and I'm really impressed with their reliable product and strong service offering in Germany. I'm looking forward to expanding the business together with the management of Bieler + Lang. Safe Monitoring Group will continue our expansion in new geographies and applications by organic growth and an ambitious acquisition agenda." says Alexander Larsson, CEO of Safe Monitoring Group.

Safe Monitoring Group is acquiring 100% of the shares in Bieler+Lang, the process was completed on the 18th of January 2023. The Sellers or Bieler+Lang have re-invested and are now also shareholders in the Safe Monitoring Group and will continue working in the group.

### **Background information**

Five decades of experience and expertise in safety technology and occupational health and safety: Bieler+Lang products have been providing timely and reliable warnings of gas accidents and explosions since 1967. Innovative gas detection and warning systems protect people, the environment and property from the serious damage caused by harmful or explosive gases and vapors. Bieler+Lang quality products can be found in industry, biogas plants, building services, underground garages and parking garages. In addition, the company has made a name for itself as a manufacturer and service provider in the field of electronics manufacturing.
